

1" - 4 1/2"
В.Д.

ВАЛЬЦОВКИ СЕРИИ P-1000

ОСОБЕННОСТИ:

- Перекрывающиеся ролики предотвращают образование гребней на поверхности обрабатываемой трубы.
- Назначение: Вальцовки данной серии идеально подходят для проведения работ в условиях ограниченного доступа к обрабатываемым трубам (например, в водяных камерах конденсаторов и в барабанах малого диаметра).

Внешний Диаметр труб дюймы	Толщина Стенок труб		Внешний Диаметр труб дюймы	Толщина Стенок труб		Минимальный внутренний диаметр труб для введения вальцовки		Максимальное Расширение		Каталожный номер вальцовки для трубных досок толщиной
